POLYTEX

The POLYTEX series is made of highly tear-resistant 1680D nylon. The items are lightweight, flexible and suitable for rough use on construction sites, in the industrial sector and in service. The series is equipped with pockets and compartments, holders and rubber loops that can hold many tools and equipment. In addition, most have not only a carrying handle, but also a carrying strap. POLYTEX is versatile for every craftsman, for technical service technicians and technicians. The bags are successfully tested in continuous use with 15kg load capacity.

Robust and hard-wearing

- Heavy-duty synthetic texture
- Various applications
- Modern design

High quality processing

- Strong zippers known from the trekking-sector
- Extremely low weight

Intelligent detail solutions

- Durability-tested with 15 kg

POLYTEX 5860

Bucket bag

The bucket bag for putting over a bucket, made of high-quality nylon D1680 scores with its versatility for various applications. Whether professional or private. The different ones pocket sizes are used to hold drills, screwdrivers, pliers filling and much more. 29 outer pockets and 14 inner pockets for holding tools of any kind, as well as a hammer loop and a closed cell phone pocket. The bucket bag is suitable for all professions in construction, service specialists, as well as very good for gardeners, hobbyists, anglers, modelers and occasional screwdrivers and many more. The multifunction tool bag is placed over a standard construction or paint bucket (10-15 l) and can then be equipped directly. Additional ACCESSORIES or consumables can be stored in the interior of the bucket. The material is waterproof and extremely robust. Once tried, the bucket bag will become a constant companion.

POLYTEX 5860

For standard construction or paint buckets (10-15 l)

Plenty of interior space plus 14 inside pockets

It's that easy:
Put the bag in the bucket and fold it over on both sides. Finished.
