The future with structure

**HEPCO & BECKER**

# VISION 2100/2101

## Premium Class tool cases

The VISION is an innovative, robust service and assembly case with an attractive design. The aluminum frame with sturdy plastic corners additionally stiffens the impact-resistant polycarbonate case. An easy-to-use one-handed central closure, a special lid brake, easy-to-remove tool plates, and a foam-equipped cover for the sorting boxes in the bottom are features that make every worker's job easier. The VISION withstands payloads of up to 35 kg. The sorting boxes and grid dividers can be varied and adapted to your own wishes. The 4-way adjustable trolley, which is equipped with three extra storage compartments and two ball-bearing, smooth-running wheels, is removable and can easily be retrofitted to the VISION 2101 model.

Tool boards can be removed individually

The tool plates have brush holders on the front and textile pockets on the back for tools

# VISION 2100/2101

One-hand lever central lock with individually adjustable combination lock locking the bottom cover panel

10 matching sorting boxes in 4 different sizes can be exchanged with each other. In the other half freely selectable dividers made of plastic lattices.

# VISION 2100

**Equipment of the Vision 2100:**  
Two tool plates, both with brush holders on the front and textile loops on the back, offer a variety of tool attachment options and can be easily changed or removed. The foam-equipped cover plate can be opened with the associated lever and fixed to the attached rubber for the small parts removal tool plate from the insert boxes. 10 sorting boxes coordinated in the bottom part in 4 different sizes 6 pieces (red) 48 x 48 x 60 mm, 2 pieces (yellow) 48 x 100 x 60 mm, 1 piece (blue) 100 x 100 x 60 mm, 1 piece (green) 100 x 155 x 60 mm, can be variably interchanged. In the other half freely selectable dividers made of plastic lattices. Detachable trolley version with three additional storage compartments and ball-bearing wheels.
